

## OWS CHANNEL PARTNER Consent to Modify, Obtain, and Release Customer Account Settings or Data

I hereby grant OpenEye the authority to modify or access data related to my OpenEye Web Services account. This authorization extends to allowing OpenEye administrative oversight of my channel partner account and any associated end user accounts. This also allows OpenEye to implement changes or access information at the database level, potentially leading to global adjustments impacting all users linked to my account.

Please provide a detailed description of the information or modifications you are requesting in the field below. Include as much detail as possible including Partner Company Name, End User Company Name, user or email affected, and dates/times if applicable.
